

**SIU School of Law Learning Objectives:**

- Students will demonstrate an understanding of the legal concepts in core subject areas and advanced specialized areas of substantive law and procedural law.
- Students will analyze legal problems effectively.
- Students will meet the expectations of a professional legal audience and clients when communicating in writing and orally.
- Students will conduct accurate and thorough legal research.
- Students will incorporate in their work the values and responsibilities of the legal profession.
- Students will demonstrate the ability to answer bar exam style questions by identifying legal issues and correctly applying legal rules and principles under test-like conditions.
